

## SUMMARY

M. Çağlar, L.-I. Cotîrlă, A. Cătaş – <i>A new family of harmonic functions defined by an integral operator</i> .....	1
Daniel Abraham Romano – <i>A se-representation of a <math>\Gamma</math>-semigroup with apartness by <math>\Gamma</math>-se-transformations of a set with apartness</i> .....	15
M. Obradović and N. Tuneski – <i>Hankel determinant of type <math>H_2(3)</math> for inverse functions of some classes of univalent functions with missing second coefficient</i> .	35
R.M. El-Ashwah, T. Panigrahi, W.Y. Kota – <i>Majorization properties for subclasses of <math>p</math>-valent meromorphic functions defined by convolution</i> .....	47
A.A.Sharif, M.M. Hamood and K.P. Ghadle – <i>Existence and Uniqueness Theorems for Integro-Differential Equations with CAB-Fractional Derivative</i> .....	59
A. O. Lasode and A. O. Ajiboye – <i>Some Results on a Set of <math>\lambda</math>-Pseudo-Starlike Functions Involving a Generalized Ruscheweyh Operator</i> .....	79
M.M. Hussein, M.G. Bin-Saad, A.A. Al-Sayad – <i>Certain results on <math>G</math>-metric spaces</i> .....	95
D. Sağlam, G. Koru, Ö. Kalkan – <i>A note on helices of Minkowski space</i> ...	113
A.A. Adeyanju, M.O. Omeike, O.J. Adeniran, and B.S. Badmus – <i>Stability and boundedness of solutions of certain Aizermann differential equations</i> .....	131
