

## SUMMARY

A.A. Thombre, D.N. Chate – <i>Application of Discrete Probability Distribution Series for Analytic Functions</i> .....	1
A. Dertli, Y. Cengellenmis – <i>The codes over a family of finite rings and some applications</i> .....	9
A.P. Adetunji, H.P. Adeyemo, D.O.A. Ajayi, S.A. Ilori – <i>Characterising Smoothness of Type A Schubert Varieties through Palindromic Poincaré polynomial method</i>	25
Mohanapriya.N, Vernold Vivin.J, Venkatachalam.M – <i><math>\delta</math>-dynamic Chromatic number of Wheel Graph Families</i> .....	39
N.U. Khan, M. Kamarujjama, Ajija Yasmin – <i>Concerning the analysis of fractional calculus and transforms of multiindex Mittag-Leffler function</i> .....	45
W.M. Alfaqih – <i>Unified common fixed point theorems for weakly compatible mappings in complex valued metric spaces</i> .....	65
