

SUMMARY

V.O. Iluebe, A.A. Mogbademu – <i>On The Sequential Henstock Stieltjes Integrable Functions in n-Normed Spaces</i>	1
R.F. Shamoyan, M.G. Bashmakova – <i>Recent advances in Bergman type projections in bounded pseudoconvex and tubular domains</i>	13
M.O Bello, A. A. Mogbademu – <i>Some Inequalities Involving the Distance in Metric Spaces</i>	47
V. Pescar – <i>A Generalization complex numbers and complex function</i>	55
Aisha Ahmed Amer, Haneen Ahmed Almasri, Maslina Darus – <i>On Neighborhoods of Certain Classes of p-valent Functions with Negative Coefficients Defined by a new Extended Generalized Derivative Operator</i>	69
T. Barman, A. Das, M.R. Bakshi – <i>Some results on Kenmotsu manifolds admitting semi-symmetric metric connection</i>	81
K. Tomczak – <i>Solutions to Selected Open Problems on Greedy Algorithms in Quasi-Banach Spaces</i>	95
M. Arikewuyo and J. Hamzat – <i>Several Findungs Concerning Different Sub-classes of Harmonic p-Valent Functions Linked with Pascal Distribution Series</i> .	99
M. Shuaib, T. Fatima – <i>A note on Conformal bi-slant submersions with vertical Reeb vector field-ξ</i>	121
