

SUMMARY

H. Shayanpour, A. Nematizadeh – <i>Some fixed point results for generalized φ-fuzzy contraction in fuzzy metric spaces</i>	1
A. Turgut Vanlı– <i>Real Hypersurfaces of an (ϵ_α) – S–Manifold</i>	21
M. A. Ganiyu, K. O. Babalola – <i>On Coefficient Determinants Involving Many Fekete-Szego-Type Parameters of Convex Functions</i>	39
V. Popa, A.-M. Patriciu – <i>A fixed point theorem for cyclic mappings satisfying an implicit relation on partial metric spaces</i>	49
R. Ayazoglu (Mashiyev), I. Ekinçioğlu, G. Alisoy – <i>Periodic solutions for a kind of Liénard-type $p(t)$-Laplacian equation</i>	61
K. I. Noor, S. Riaz – <i>Properties of certain subclasses of close-to-convex functions</i>	73
B. Venkateswarlu, D. Vamshee Krishna, N. Rani – <i>Third Hankel determinant for certain subclass of p-valent functions whose reciprocal derivative has a positive real part</i>	89
A. B. Khalaf, H. Z. Ibrahim, A. K. Kaymakci – <i>Operation-Separation Axioms Via α-Open Sets</i>	99
S. Rahrovi and J. Sokół– <i>Differential sandwich theorems for some subclasses of p-valent functions</i>	117
S. Bulut – <i>Fekete-Szegő type coefficient inequalities for a new subclass of analytic functions involving the q-derivative operator</i>	133
Virendra Kumar, S. Sivaprasad Kumar– <i>On certain properties of meromorphic multivalent functions defined by a generalized differential operator</i>	147
H.Özlem Güney – <i>Initial Chebyshev polynomial coefficient bound estimates for bi-univalent functions</i>	159
A. Ebadian, S.Shams, R. Asadi – <i>A class of meromorphic multivalent functions defined by a differential operator</i>	167
H. Aaisha Farzana, B. Adolf Stephen, M. P. Jeyaraman – <i>On Some Differential Inequalities with Applications I</i>	189
S. Owa, D. Kawanabe, K. Teramoto, R. Hirahara, K. Yamamoto, T. Yamamori – <i>Generalization measure for cones and spheres</i>	201
