

## SUMMARY

S.S. Dragomir – <i>Some Weighted Integral Inequalities for Convex Functions</i> ..	1
Om P. Ahuja, Subzar Beig, V. Ravichandran – <i>Univalent Harmonic Functions Generated by Ruscheweyh Derivatives of Analytic Functions</i> .....	13
S. Porwal – <i>Some Sufficient Conditions on Analytic Functions Associated With Poisson Distribution Series</i> ..	25
Daniel A. Romano – <i>On co-filters of implicative semigroups with apartness</i> .	33
E. Karamazova, N. Tuneski – <i>A result by Silverman transferred on multivalent functions</i> .....	45
H.Ö. Güney – <i>Coefficient Estimates for Bi-Concave functions of Sakaguchi type</i> .....	53
S.A. Saleh, A.H. El-Qadeem, M.A. Mamon – <i>Inclusion Relationships and Some Integral-Preserving Properties of Certain Classes of Meromorphic <math>p</math>-valent Functions</i> .....	63
Hagos Tadesse, D.L. Suthar and Zeradawit Gebru – <i>Certain Integral Transforms of the Generalized <math>k</math>-STRUVE Function</i> .....	77
A. Baboş – <i>Some interpolation operators on a curved domain</i> .....	91
C. Bărbatu, D. Breaz – <i>New Univalence Criteria for an Integral Operator with Mocanu's and Şerb's Lemma</i> .....	101
