

SUMMARY

G. Özkan Tükel, R. Huang and A. Yücesan – <i>A note on hyperelastic curves</i> .	1
S.Ulagammal, Vernold Vivin.J – <i>On Star Coloring of Degree Splitting of Tensor Product of Graphs</i>	11
S. Sarkar, S. Pahan, A.Bhattacharyya – <i>Conformal η-Ricci soliton on a type of $(LCS)_n$ Manifold</i> ...	21
M. Houas – <i>Existence and Ulam stability of fractional pantograph differential equations with two Caputo-Hadamard derivatives</i>	35
A. Çetinkaya, Y. Polatoğlu – <i>Partial Sums of Harmonic Univalent Convex Functions By Using Quantum Calculus</i>	51
M. A. Kara and B. Belaïdi – <i>On the φ-order and the φ-type of Entire and Meromorphic Functions in the Unit Disc</i>	65
Mohd Danish Siddiqi – <i>Newton-Ricci-Bourguignon almost Solitons on Lagrangian submanifolds of complex space form</i>	81
A.O. Mostafa, M.K. Aouf, R.E. Elmersy – <i>Fekete-Szegő properties for quasi-subordination class of complex order defined by q-derivative operator</i>	97
T. Panigrahi, R.M. El-Ashwah – <i>Coefficient inequalities for class of bi-univalent functions associated with (p,q)-derivative of Salagean operator</i>	109
Nacima Memić and Amil Pečenković – <i>On the L_1 norm of the Dirichlet kernel on the group of 2-adic integers</i>	123
